

The Wikipedia definition of Social Media

“computer-mediated technologies that facilitate the creation and sharing of information, ideas, career interests and other forms of expression via virtual communities and networks”.

But what do we need to know to help us to protect our family from:

1. Internet predators
2. Cyberbullying
3. Social media pitfalls
4. On line gaming (such as “Fortnite”, “Roblox”, “Grand Theft Auto” type games)
5. Sexting

The DCSCA is organising an information night on the above significant topics.

DATE: Wednesday 29th August

TIME: 6.15 – 8.00

VENUE: Christian College Centre for Music, Sport and Performing Arts.

40 Collins Street, Drysdale

The speaker is Robert Noggler (Leading Senior Constable) Youth Resource Officer Western Region Division 1

Robert is an excellent, well informed speaker who will provide us with not only an understanding of the social media challenges being faced by all of us but also provide us with strategies to confidently deal with any problems you or family members may be dealing with.
