

Saint Ignatius College Geelong is delighted to present the 2019 Time & Space Evenings for Fathers.

These innovative single evening programs are part of some special transition events that we offer our Year 7 and 8 students and they are happening here in our school community during the last weeks of August.

The programs have a whole range of memorable moments that include carefully guided interactions with other fathers and students. Fathers will emerge from the night reassured and impressed by the way our students are able to speak up and share insights about their lives. And be assured that the night is fun too... full of activities and conversations that will make us smile.

Time & Space for 'Stepping Up'

Media attention often feasts on the reality that some famous sportsmen and celebrities fall short of being good 'role-models' to our boys... but we are confident that the best role-models are much closer to home. 'Stepping Up' taps the very best resources in our own school community... the dads (or grandfathers, older brothers or uncles) of our boys. Be part of this innovative single evening program that gives a signpost to each boy about the best ways he can 'step up' to be a good man.

Time & Space for 'Fathers and Daughters'

She is growing up and the opportunity to reflect on the joys and challenges of this time in your life and her life, is one not to be missed. This is a special night for the girls as they witness the fathers discussing the importance of their role. We think that the girls seeing and being part of a gathering of fathers and mentors with this good intent, helps them to build their profile of a good man. This is a great night for seeing how you handle the 'letting go' process as they start to forge some independence.

We know that families come in all shapes and sizes and not all fathers can attend an evening such as this. A male mentor such as a grandfather, uncle or family friend is welcome to attend.

We are bringing Bill Jennings to our school to facilitate this unique experience for you. Bill is the creator and founder of 'Time & Space' (www.time-space.com.au), a service he has developed to give people just that - 'time and space' for parents and their children to share important moments together within a school community setting.
